- Version Control: Git
- Problem-solving, critical thinking, and analytical skills
- Strong communication and teamwork abilities

CERTIFICATION

- Certification in Full Stack Development, NXTWAVE Technologies
- Certification in Mobile App Development, Coursera

SOFT SKILLS

- Teamwork
- Problem-Solving
- Adaptability
- Time Management

SUMMARY

As a fresher with an M.Tech in Computer Science Engineering, I have a strong foundation in computer science principles, advanced programming languages, and a passion for exploring innovative technologies to solve complex problems. Seeking opportunities in mobile development to apply my skills and contribute to building cutting-edge applications.

ACADAMIC PROJECTS

Portfolio Mobile Application

GITAM Institute of Management

- Developed a mobile application using React Native to showcase my skills, projects, and experiences in an interactive and user-friendly manner.
- Implemented features such as project gallery, contact information, and a user-friendly interface.
- Utilized API integration for real-time data updates.

Wikipedia Search web Application

https://wikisearch1234.ccbp.tech

- Developed custom Wikipedia search application where users can search
- and view curated results and can see detailed explanations in Wikipedia
- by clicking on the specific result
- Technologies used: HTML, CSS, JS, REST API Calls, Bootstrap

EDUCATION

Gitam University, Visakhapatnam — Mtech
